

# REDISCOVER

COLOUR DESIGN BY JOTUN

MAJESTIC

PREMIUM INTERIOR PAINT

Our homes and the things we surround ourselves with matter, of course – they make us feel safe and protected – but the age of unchecked consumerism, the pursuit of novelty for novelty's sake, is at an end. Whatever we have, if we have health, home, family and friends, we have enough.

At Jotun, we have been creating colours for nearly 60 years. Our library spans thousands of hues, each one with a story to tell. In the past, our annual colour card has showcased our newly created tones and shades for the home. This year, however, we REDISCOVER. Some of the colours in these pages are new, but many have been carefully picked from our archives – timelessly inspiring hues that can be called on to tell new stories in our homes.

We have grouped these colours into four families – four stories, if you like – but this is not intended to be prescriptive. Our home, like our life, is what we make it. And no matter the colours we choose, the truly considered home never goes out of style.

WARM RUSTIC SHADES THAT REMINDS US OF  
THE NURTURING EARTH WE ALL COME FROM.

A PALETTE THAT ENCOURAGES SLOW LIVING  
AND SENSORY APPRECIATION.

Clay and stone, sand and soil. These are the raw materials from which our houses and cities are made, the essential building blocks of human life.

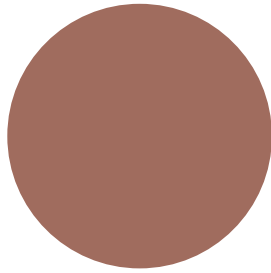

Reds and browns, muted yellows, rustic brights: these grounding shades centre us in times of turmoil. They are imbued with a sense of stability and security.

This is a palette for creative travellers and connoisseurs of craft, drawing influences from cultures across the globe to create 21st-century interiors that relax and inspire.

In a world of noise and clutter, we are drawn to clarity and peace. We find them by dialling down the volume of our homes, removing the superfluous and celebrating the simple.

Chosen well, subtler, quieter colours can have a powerful impact. These shades might not be bold; they might not scream for attention, but they bring comfort and clarity in their softness and subtlety.

In these balanced, tactile spaces, our minds are able to focus, undistracted, and our thoughts become clear and free.

While the earth grounds us, the sky and the sea lift us up. They open our minds to the infinite and the unknown, encouraging us to find tranquillity in a remote wilderness or a distant horizon.

The grey-blue of the ocean, white wisps of cloud, mountain stone... These are the colours of wild and far-flung places – the kind we retreat to when we want to immerse ourselves in nature, and find peace in its silence.
